Residential HVAC System

February 23, 2026 / Quote No. 14844 / QA Test Proposal, 1234 Test St, Honolulu, Hawaii

Introduction

Congratulations

Thank you for your consideration in our HVAC proposal. The purpose of this document is to illustrate the advantages for you, your household and the environment by installing a HVAC system with Alternate Energy Inc.

Three Generations

Alternate Energy Inc. (AEI) is a family-owned and operated business with a long history of serving kamaaina. More than 30 years ago, Bruce Ekimura, a plumber by trade, realized that harnessing the power of the sun could help Hawaii families

combat the rising price of electricity and help our state become less dependent on imported oil. In 1993 Alternate

Energy was officially incorporated. Today, as rising oil prices continue to keep electricity rates soaring, Alternate Energy remains committed to helping local families and businesses discover the clean, green, high efficiency energy saving systems.

Elite Training & Certification

The Mitsubishi Electric Diamond™ Contractor Advantage Certified Training and Expertise Mitsubishi Electric Diamond Contractors have reached the highest level of accreditation from Mitsubishi level of accreditation from Mitsubishi Electric Cooling & Heating. Factory trained in the M- and P-Series products, we have invested the time to develop personalized, hands-on expertise in sales, installation and service at one of Mitsubishi Electric's approved training

COOLING & HEATING

centers. So, customers can be sure that they're getting the most professional, sure-handed installation and maintenance ' the most reliable environmental comfort available from a Mitsubishi Electric Cooling & Heating system.

Our Warranty

As a certified Diamond Contractor, our customers also get to enjoy an extended warranty of twelve (12) years, so that's a twelve (12) compressor and twelve (12) year parts warranty from Mitsubishi Electric.

Alternate Energy Inc. offers a competitive two(2) year Premium AEI Workmanship HVAC Warranty - we've got you covered.

Quality Products

We understand that HVAC systems are a long-term investment. That's why we invest in the most reliable companies that have been trusted for years.

Mitsubishi Electric Cooling and Heating systems have many other benefits for homeowners:

- Up to 35% more efficiency than a window unit and up to 40% more energy-efficient than central air-conditioning.
- Whisper-quiet operation
- Wide range of system sizes to handle large or small applications
- Separate temperature/fan speed controls for each room or zone.
- Low-maintenance operation

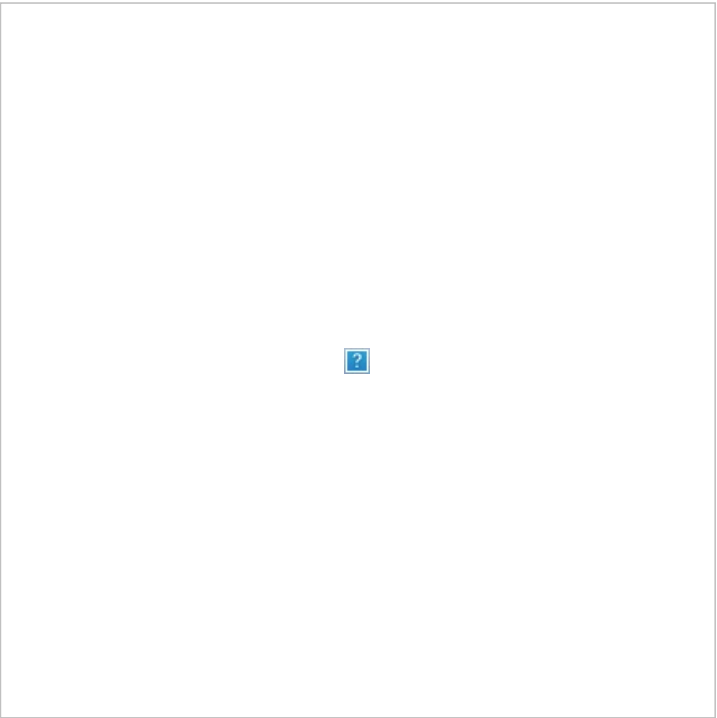

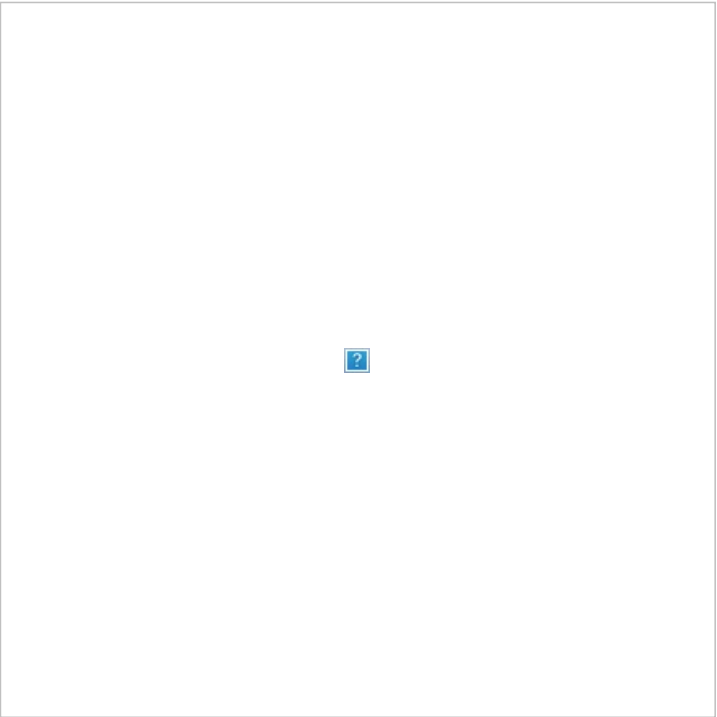

COST vs. COMFORT

Mitsubishi Electric Cooling & Heating systems are dramatically more efficient than traditional HVAC systems. Utilizing INVERTER-driven compressors, our systems automatically adjust to changing conditions to deliver ideal comfort while only using the energy that is needed. No more. No less.

M-Series systems utilize green technologies, and are much more efficient, so homeowners never have to sacrifice comfort over worries about high-energy costs.

- ◆ INVERTER technology results in substantial energy and utility savings for homeowners
- ◆ Zone control for improved comfort and decreased energy usage
- ◆ Many ENERGY STAR rated systems
- ◆ SEER ratings as high as 30.5 - dramatically better than conventional systems
- ◆ Local and state utility rebates and incentive opportunities
- ◆ Environmentally friendly R410A refrigerant with zero Ozone Depletion Potential (ODP)
- ◆ 83% of system components are recyclable
- ◆ Washable fi lters made from natural materials

Manufacturer Warranty: 12 years parts / 12 years compressor

The Original "SLIMDUCT"

The original SLIMDUCT SD PVC trunking system has always been the market leader in Quality, Design, Function and Versatility. SLIMDUCT is fabricated from a special high grade PVC for superior UV and weather resistance for long term protection from the elements, vandalism and pest

Allergen Filtration HVAC

The air quality inside your home is often worse than the air quality outside. Mitsubishi Electric Cooling systems use a sophisticated multi-stage fi ltration system to help remove airborne particles and contaminants such as allergens, viruses, and bacteria from the air as they circulate within a

Energy Efficient Cooling Systems

Mitsubishi Electric split-zoning and cooling-only systems are so energy effi cient that a majority of our INVERTER driven systems are ENERGY STAR rated. This can mean big savings. Add in the HEEP

damage.

room.

rebates and you have an opportunity to
enjoy comfort at substantial savings.
